Docket No. 98N-1265

Food and Drug Administration 99 MAR 19 P1:38

5600 Fishers Lane

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I use a compounded hormone prescription from Madison Pharmacy in Wisconsin and am healthier for taking a preparation that is molecularly identical to my body hormones rather than a synthetic product that is not! My Gynecologist writes the prescription and sends it to Madison pharmacy as this service is not available locally.

As Wisconsin and Oregon, where I live, are both part of the USA, I fail to understand interference from my government. I believe the FDA should concern itself more with the public good and less with the financial health of the drug companies. Sincerely, Nancy Birdenstone
